Utilizing the theme that human cognition has evolved over time as a means of adapting to our environment, the authors explore the basics of cognitive psychology by covering cognitive neuroscience, attention and consciousness, perception, memory, knowledge representation, language, problem solving and creativity, decision making and reasoning, cognitive development, and intelligence.

Cognitive Psychology 7th Edition (PDF) - eBooks Library

had to buy this book for my cognition class, and it is perfect and cheaper than what they wanted for the 7th

edition at my bookstore. This is the 2nd newest edition (I believe its the 6th) so the newer book does have more updated parts as well as the pages don't match up (naturally) but my teacher said that the majority of the information is the same.
