Introduction. Previous work by the Pew Internet Project suggests that the communicative functions of the internet and cell phones are the main reason why teens use these technologies. 17, 18 Since many of these technologies are text-based, they constitute another potential space for writing under a broadly constructed definition of the term. Yet despite the ubiquitous use of these tools, our ...

Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology. It is transmitted either electrically over physical media, such as cables, or via ...

Electronic warfare (EW) is any action involving the use of the electromagnetic spectrum (EM spectrum) or directed energy to control the spectrum, attack an enemy, or impede enemy assaults. The purpose of electronic warfare is to deny the opponent the advantage of, and ensure friendly unimpeded access to, the EM spectrum.
