On the Front Lines - Hudson River Estuary Program "On The Front Lines" showcases DEC employees and the unique work they do. Watch environmental educator Chris Bowser describe his role teaching others about the wondrous creatures and qualities of the Hudson River Estuary.

New York State Department of Environmental Conservation

A purposeful sampling strategy was employed to select participants. Purposeful sampling is a qualitative method where the researcher selects a small number of participants on the basis of their special attributes and ability to inform an understanding of the research question , . 4 In this case participants were selected on the basis of their cultural heritage and religious beliefs.
