

Soap Making Methods Cold Process This is probably the most commonly used soap making method. This involves making soap from scratch using fats or oils, and lye. It takes more time to create cold process soaps than it is to make soaps through the other methods.

Soap Making: 71 Homemade Soap Recipes | PDF Flipbook

the center, making the island smaller; and and 4) Island sinks beneath the waves and a clear liquid floats on top of the soap that is now somewhat translucent (the liquid is the natural glycerin that is a by-product of the chemical reaction which makes soap).
