### **Production Planning and Control - SlideShare**

Chapter 18 Production Planning and Control In any manufacturing enterprise production is the driving force to which most other functions react. This is particularly true with inventories; they exist because of the needs of production. In this chapter the relationship of production planning and control to work-in-process inventories is stressed.

### **Chapter 18 Production Planning and Control Objectives of**

The first two relate to production planning while the second two relate to control. Planning and scheduling are directly associated with time and capacity management, a major factor in enhancing shop floor efficiency and business results, and the second stage of production planning and control (PPC).
