LECTURE NOTES on PROGRAMMING & DATA STRUCTURE Course Code

Language acquisition is the process by which humans acquire the capacity to perceive and comprehend language, as well as to produce and use words and sentences to communicate. Language acquisition is one of the quintessential human traits, because non-humans do not communicate by using language. Language acquisition usually refers to first-language acquisition, which studies infants ...

In the third installment in the Orchestrator Runbook Jumpstart series, we will take a deep dive into advanced runbook authoring concepts, best practices and options for extending native Orchestrator functionality. Complex Link Logic (Advanced Branching) Bridging the Gaps with PowerShell Extending ...

Orchestrator Runbook Jumpstart (Part 3)â€™Bridging Gaps

In computer science, program optimization or software optimization is the process of modifying a software system to make some aspect of it work more efficiently or use fewer resources. In general, a computer program may be optimized so that it executes more rapidly, or to make it capable of operating with less memory storage or other resources, or draw less power.

An assembly language is a programming language that can be used to directly tell the computer what to do. An assembly language is almost exactly like the machine code that a computer can understand, except that it uses words in place of numbers. A computer cannot really understand an assembly program directly. However, it can easily change the program into machine code by replacing the words ...

This month's (January 2019) giveaway is a 10 MHz function generator - or, rather, a bag of parts that can be assembled to be a function generator.

Hardware and software tools for embedded developers

Encapsulation: The act of placing data and the operations that perform on that data in the same class. The class then becomes the 'capsule' or container for the data and operations.

What is Object Oriented Programming (OOP)? - Tony Marston

At the beginning of this year Structured Dynamics assembled a listing of ontology building tools at the request of a client. That listing was presented as The Sweet Compendium of Ontology Building Tools. Now, again because of some client and internal work, we have researched the space again and updated the listing
