A middle school (also known as intermediate school or junior high school) is an educational stage which exists in some countries, providing education between primary school and secondary school. The concept, regulation and classification of middle schools, as well as the ages covered, vary between, and sometimes within, countries.

One of the main benefits of electronic forms is their dynamic nature. A form need not be created with one set of data and then left that way indefinitely. An electronic form once wired to a back-end data source can be dynamically updated at any time. A common use of this concept is having a dropdown ...

Because noncognitive qualities like grit, curiosity, self-control, optimism, and conscientiousness are often described, with some accuracy, as skills, educators eager to develop these qualities in their students quite naturally tend to treat them like the skills that we already know how to teach: reading, calculating, analyzing, and so on. And as the value of noncognitive skills has become ...
