Nutrition: Resources for Schools Healthy school meals for Minnesota kids. Schools throughout Minnesota are doing outstanding work to improve nutrition and teach children good habits that last a lifetime.

Nutrition

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
