

purves neuroscience 5th edition pdf

Neuroscience (or neurobiology) is the scientific study of the nervous system. It is a multidisciplinary branch of biology that combines physiology, anatomy, molecular biology, developmental biology, cytology, mathematical modeling and psychology to understand the fundamental and emergent properties of neurons and neural circuits. The understanding of the biological basis of learning, memory ...

"Back in 1978, the first edition of Mayo Clinic Medical Neurosciences revolutionized our approach to teaching by aligning neuroscience knowledge to a clinician's approach to patient assessment. From those historical roots, the authors of this sixth edition set out on a daring enterprise to produce an updated and reorganized book.

Mayo Clinic Medical Neurosciences: Organized by Neurologic

The human brain is the central organ of the human nervous system, and with the spinal cord makes up the central nervous system. The brain consists of the cerebrum, the brainstem and the cerebellum. It controls most of the activities of the body, processing, integrating, and coordinating the information it receives from the sense organs, and making decisions as to the instructions sent to the ...
