Site Design, Parking and Zoning for Shopping Centers. Download original report (pdf) Suburban shopping centers have come into existence, grown in size, and increased in number not because they offer new products or better stores than are to be found in central business districts, but because they are convenient.

Site Design, Parking and Zoning for Shopping Centers

This statistic shows the total number of shopping malls in the United States from 1970 to 2017. In 2017, there were approximately 116 thousand shopping malls in the United States.

Shopping is an activity in which a customer browses the available goods or services presented by one or more retailers with the potential intent to purchase a suitable selection of them. A typology of shopper types has been developed by scholars which identifies one group of shoppers as recreational shoppers, that is, those who enjoy shopping and view it as a leisure activity.
