the psychology of self pdf

The psychology of self is the study of either the cognitive, conative or affective representation of one's identity or the subject of experience. The earliest formulation of the self in modern psychology derived from the distinction between the self as I, the subjective knower, and the self as Me, the object that is known.. Current views of the self in psychology position the self as playing ...

WELCOME TO THE DEPARTMENT OF PSYCHOLOGY

Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...
