Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...

Thought encompasses an â€œaim-oriented flow of ideas and associations that can lead to a reality-oriented conclusion.â€• Although thinking is an activity of an existential value for humans, there is no consensus as to how it is defined or understood.. Because thought underlies many human actions and interactions, understanding its physical and metaphysical origins, processes, and effects has ...

So What Is Positive Education? Positive education is the combination of traditional education with the study of happiness and well being, using Seligmanâ€™s PERMA model and Values in Action (VIA) classification. Seligman has been working on incorporating positive psychology into education to decrease depression in younger people and enhance well being and happiness.
